Sustainability

1. Just One: Africa raised funds to prepare the school building for electricity and then partnered with another organization to bring electricity to the orphanage and farm in Bondo. We had Kenya Power wire the 30' by 60' school building for outlets and lighting fixtures. We worked with the other organization to complete this

project bringing power poles and running the connecting wires to the school building and orphanage. This is a huge step in the right direction; bringing them closer to sustainability and allowing for other income generating projects to move forward.

2. One of Just One: Africa's income generating projects is the Salem Bakery at Salem Orphanage. It has continued to grow due to the arrival of electricity. The large industrial mixer is now in full use allowing them to mix bread much more efficiently than by hand. This expedites production of the bread resulting in more loaves, rolls, and specialty items, thus increasing the output and therefore their income. There is a great demand for the bakery items and word has spread as the quality is excellent and price point is competitive. They are still using the motor bike to distribute to town as well as areas farther out increasing market opportunities. This sustainability project has created local jobs, bread for the orphans, and additional income that can be used for medical, educational, along with other food needs.

3. Just One: Africa efforts allowed for a rain catchment system to be installed on the 30' by 60' school building in Bondo featuring a 10,000 liter tank which has the capacity to capture the large amount of water that can fall in a short time. This water is mostly used for the washing of the orphan's clothes and the remainder is now available for watering crops. Since this tank is positioned at the top of the property, it eliminates the need for pumping water up from the lake to irrigate crops resulting in a reduced amount of resources necessary rather than relying strictly on the gas powered water pump.

1. Just One: Africa provides monthly educational support to Salem

Orphanage in Bondo as well as to Lenkai Christian School in Kimana.

Both of these locations have a large number of children who otherwise

would not be able to go to school without our vital educational

support.

2. In 2013 the brick school building construction in Bondo began and in

2014 doors, windows, cement floors, light fixtures, and a final cement

coats on the interior and exterior walls were added. Utilizing Just

One: Africa funds, electricity has been added so that that teachers and

students can see to teach and learn and also allowing it to be

functional more hours each day.

3. Lenkai Christian School in Kimana was in desperate need of a

multi-purpose building due to the growing student body. Just One:

Africa raised necessary funds for a 70' by 40' multi-purpose building

that will be used as a location for school assemblies, a concert hall

for their budding music program, a dining hall, an educational facility

for the community, and a play area for the kids during inclement

weather. It is equipped with electricity allowing it to truly function

in many different ways. This building can also be rented out as it is

one of the largest halls in the area providing a sustainable income for

the school.

4. We held 3 teacher training workshops at Salem Academy in Kisumu,

Lenkai Christian School in Kimana and Salem School in Bondo led by two

volunteer teachers /JOA supporters from the States. Just One: Africa

teachers in Kenya. These are hard-found, precious tools to Kenyan
 teachers. The training and resources will allow more effective teaching
 which provides an important foundation for a quality education.

5. Just One: Africa organized a school supply drive at several local
 U.S. schools. As a result of this drive, dozens of boxes of donated,
 high quality educational materials were distributed to students in
 these three schools. Supplies such as these will allow the students to
 have the resources needed to move forward with their studies. With
 access to education and the proper tools, the student's time
 investments in their educational pursuits will pay off exponentially as
 they grow. With a solid education behind them, they will have the
 ability to remove themselves from the poverty cycle.

6. Music Program: Just One: Africa was able to add many more
 instruments to this growing program and we couldn't be more proud of
 the students and staff for how they have expanded the music curriculum
 and production with excellence. Two keyboards, 6 violins, numerous
 music charts and music stands were added as funds came in to move this
 awesome opportunity forward. There is a phenomenal teacher that drives
 from Nairobi to teach these students. He is well-versed in music theory
 as well as multiple instruments. His passion and wonderful spirit bring
 life and a new love of the learning of music. This program will open up
 opportunities for the students to have a scholarship to university.

Clean Water
 In Kenya many people have access to water, but it is not clean which
 results in tremendous problems with water-borne disease. Just One:

with the added benefit of requiring no replacement parts. Each filter

provides clean water for up to 25 people for life. Our follow-up has

shown that in just a matter of a few weeks, health dramatically

improved, and deaths from water-borne diseases declined radically. We

are dedicated to work to provide this clean water so that healthy

children may return to school and well parents can continue in their

jobs and families we impact can thrive.

1. We launched our recycled paper bead bracelet program. This provides

immediate income to Kenyan women who make the beads. We partner with

clubs, business and individuals who volunteer in the States to help

string the beads into bracelets which are sold and allow 100% of the

profits to provide water filters to people in Kenya.

2. We launched our already successful online store where our bracelets

and other branded merchandise are sold across the country.

3. We distributed 520 (our goal for the year was 500) Sawyer water

filters and trained the recipients on sanitation best practices and

simple ways to keep their families healthy. These filters provided

clean water to 13,000 people in Kisumu, Bondo, Kimana, Loitokitok and

Amboseli. Each of these areas has access to water, but it is

contaminated which causes catastrophic problems due to water-borne

disease. We worked with local leaders to identify the neediest people

in these areas and specifically inquired about ones caring for children

so that we knew best where to focus our initial efforts.

4. We trained our local partners to distribute the filters, train the

recipients, and demonstrate sanitation best practices. This allows us

to send the filters unaccompanied as now we do not need to be present
